

# Hi There, I'm Brian Broxton

For 20 years I've designed assets for print, digital marketing, social media, web development, email, ads, and motion design. I'm passionate and curious about all aspects of design with a detail oriented mindset. I thrive in a fast-paced and demanding environment, possess a high level of intellectual curiosity, and demonstrate strong judgment in the face of ambiguity. I'm agile, goal-oriented, driven to succeed and always up for a challenge, and most importantly able to self-manage. If you looking for a team player and collaborator, willing to jump into a project alongside fellow creatives, I'm your guy.

## Marketing Designer

Buford, GA
